## SUMMARY

Junior developer focused on Python, SQL, APIs, and practical web applications. Experience building client websites, chatbots, backend APIs, automation tools, and database-backed apps. Targeting remote application support, junior backend, and junior full-stack roles.

---

## SKILLS

React.js, TypeScript, JavaScript, Python  
Node.js, Express.js, Django, REST APIs  
SQL, MySQL, MongoDB  
Git, GitHub, VS Code

Arabic Native,  
English Fluent,  
French Proficient.

---

## CERTIFICATIONS

Elements of AI for Business  
**MinnaLearn / University of Helsinki**  
January 2026  
Completed a 4-week program covering practical AI concepts, business use cases, and responsible AI adoption

Full Stack AI Developer Bootcamp  
**Academy4Geek - Geeks Institute**  
May 2026  
Project-based training in React, Node.js, TypeScript, backend APIs, AI-assisted development, and deployment

Data Science Bootcamp  
**ALX**  
Ongoing  
Training in Python, SQL, data analysis, machine learning fundamentals, and data-driven project workflows

Google Data Analytics Professional Certificate  
**Google**  
In Progress  
Training in spreadsheets, SQL, data cleaning, data visualization, dashboards, and analytical thinking

---

## EXPERIENCE

Junior Full Stack Developer  
**Creativity E-Marketing Inc.**  
March 2025 to Present  
Built and maintained responsive client websites and web applications  
Developed backend API features and connected frontends with databases and external services  
Translated client requirements into practical technical solutions

Robotics Trainer  
**COIN ETUDIANT Inc.**  
June 2025 to December 2025  
Delivered hands-on robotics workshops for beginner students  
Taught wiring, breadboarding, sensors, electronics, and microcontroller prototyping  
Prepared practical exercises and helped students troubleshoot hardware and software issues

Independent Full Stack Developer  
**Personal Projects**  
Ongoing  
Built web apps including habit trackers, task organisers, school-management tools, and legal-document systems  
Developed backend APIs, SQL databases, text parsers, and local-first productivity tools  
Worked with React, Node.js, TypeScript, PHP, Python, and SQL

---

## EDUCATION

**MUNDIAPOLIS University**  
Bachelor's Degree in Applied Computer Science  
June 2024  
Thesis focused on AI integration in e-commerce websites

**MIAGE**  
Specialised Developer Program  
Associate Degree in Web Development  
May 2022  
Coursework in full-stack development and project management
